
Federal Child Labor Regulations Change

There is a new set of regulations (change happens July 19, 2010) that expands and clarifies the types of activities and occupations which are forbidden to youth under the age of 18. Each county should review the various restrictions and implement necessary changes for any youth employees as soon as possible. Remember that even where the rules do not apply to volunteers, allowing a minor to engage in an activity which is regulated or considered to be hazardous can increase potential liability in the event of an injury.

Representative Hazardous Duty Restrictions on Youth Aged 16-18

Generally, hazardous occupations are those involving the use of or exposure to, various hazardous tools, power driven equipment, and naturally dangerous conditions such as heat, pressure, fire, chemical hazards, explosive substances, and the like. Here are some examples:

- Occupations in or about plants or establishments manufacturing or storing explosives or articles containing explosive components.
- Occupations of motor-vehicle driver and outside helper.
- Occupations in the operation of any sawmill, lath mill, shingle mill, or cooperage stock mill.
- Occupations involved in the operation of powerdriven woodworking machines.
- Occupations involved in the operation of powerdriven hoisting apparatus.
- Occupations in connection with mining, other than coal.

Representative Hazardous Duty Restrictions on Youth Aged 14-16 and Younger

This would include all restricted activities for the older

age group, plus the following:

- Occupations that involve operating, tending, setting up, adjusting, cleaning, oiling or repairing any power-driven machinery including, but not limited to, lawn mowers, golf carts, all-terrain vehicles, trimmers, cutters, weed-eaters, grass edger's, food slicers, grinders, choppers, food processors, cutters, food cutters, and food mixers.
- Any outside window washing that involves working from window sills, or work using ladders, scaffolds, or substitutes for ladders or scaffolds.
- Transportation occupations including rail, highway, air, water, pipeline, or other means; warehousing and storage, communications and public utilities.
- Construction of all kinds, except office work or sales that don't involve performing duties on trains, motor vehicles, aircraft, vessels, or other means of transportation, or at a construction site.

The changes may be viewed at the Electronic Code of Federal Regulations (e-CFR) website. Be careful to see both the CFR and the new links to the Federal Register Material which are inserted there.

What This Means to Counties

Review your youth employee occupational assignments and determine a plan for addressing any needed changes, before the new regulations are implemented on July 19, 2010. For more information, contact your CTSI loss prevention representative at 303-861-0507.
