## New Online Classes for CTSI Members

CTSI's Loss Control Team provides high-quality, value-added services that help counties reduce their exposure to loss while improving the safety and efficiency of their workplaces. As part of CTSI's continuing efforts to better serve our members, CTSI has partnered with Biz Library to offer 200 hand-picked training and skills classes that county employees can watch online when it is convenient for them.

### ONLINE CONVENIENCE

These new online classes, coupled with CTSI's already robust online class offerings, will allow CTSI to adopt a new hybrid training method with a growing focus on online courses. Online classes can be viewed when convenient for as many or as few employees as needed—no need to reschedule or send an absent employee to another county for a make-up class.

### CLASSES YOU NEED, WHEN YOU NEED THEM

Did you know that CTSI offers three kinds of defensive driving classes? These classes are some of the many courses designed to improve safety and lower insurance rates. Some, such as CTSI's New Miner Training class, are federally mandated to comply with Mine Safety and Health Administration (MSHA) regulations. Other courses, like Civil Rights, Discrimination and Harassment Prevention, or Body Mechanics, promote a healthier workplace.

### KEEPING THE PERSONAL TOUCH

In-person classes will continue to be available as needed. And, of course, our Loss Control team is available by phone and email to answer your questions and help you find the training that's right for your county.
